The work at the Trust for those working directly with the service users can on occasion be physically demanding and employees must be able to undertake in full the requirements of the job and requisite training.

For the safety of staff and the service users, training will be provided to assist employees to carry out their role, specifically the Movement & Management of Loads & People, Emergency First Aid and PROACT SCIPr UK training (this provides staff with the skills to carry out the sometimes-necessary safe holds in a non-threatening way).

Employees will be required to fully participate in all training.

Having a disabling condition does not preclude you from working for the Together Trust. However, you should make the Together Trust aware of any adaptations required to enable you to undertake the work.

We are committed to safeguarding and promoting the welfare of children, young people and vulnerable adults and expects all its staff and volunteers to share that commitment.
