As a member of our outreach therapy team the postholder will work with a small multi-disciplinary team (MDT) of colleagues to provide an EOTAS (Education other than at school) package of support for a young person at home and in the community.

The postholder will be skilled in working with young people who have complex needs including autism, anxiety and a demand-avoidant profile.

The post holder will be an integral member of the MDT, demonstrating both excellent team skills and an ability to work independently following direction from an Advisory teacher, who will co-ordinate the service, and with input from the Psychology, speech and language therapy and occupational therapy teams.

Nature of Post

The EOTAS package will be facilitated from a range of settings based on the young person's need; virtual sessions will be delivered from Together Trust's Central Office in Cheadle; direct sessions will take place in the young person's home and in a range of community settings as required.

About you:

- You are funny, energetic and have similar interests to this person
- You like to be active and keep fit as a lot of the activities we do include running, jumping and climbing.
- You are understanding and accepting of people's difference
